Andrew,

We received the subject information requirement and are gathering data for our initial submission.

We understand that you require a monthly submission their after.

We are happy to comply with this request.

I didn't receive the envelope until 25 January. It may have been an error in our mailroom that received it and sent the return receipt acknowledging its delivery and failed to get it to my desk.

We will have our initial report to you by 12 February regarding paragraphs 15 and 16 (mass of solids and improvements to removal systems).

Is that acceptable?

Tom: My apologies! I received your voice message and thought I had responded, but apparently that was only in my mind. (The snow must have gotten to me). Unfortunately I had no involvement in the preparation of the information request under Section 308 of the Clean Water Act, and therefore, I'm afraid I cannot be of much assistance in interpreting it. I suggest that you contact Andrew Seligman at (215) 814-2097
